Devcon® 2015 New Year Specials

14250 5 Minute® Epoxy
 Rapid-curing, general-purpose adhesive/encapsulant which easily dispenses and mixes in seconds, dries in 15 minutes and reaches functional strength in 1 hour.

10110 Plastic Steel®
 The original metal-filled epoxy putty used for hundreds of routine maintenance, production, and tooling applications. Patch and repair areas where welding or brazing would be undesirable or impossible.

11490 Wear Guard™ High Load
 High-alumina, ceramic bead-filled epoxy system for outstanding abrasion resistance to processing equipment. Handles particulate greater than 1/8

15820 Flexane® 80 Putty
 Trowelable, 100% solids, tear-resistant urethane compound used to line and repair process equipment exposed to impact abrasion, vibration, expansion, and contraction.

13100 Floor Patch™
 All purpose concrete patching
 Compound with a compression strength of 8000 psi, three times the typical strength of concrete.
 Excellent adhesion to a variety of substrates including concrete, brick, masonry, metal, or wood surfaces
 Functional cure in 8 hours; full cure in 16 hours
 Acceptable for use in meat and poultry plants

14300 Plastic Welder™
 Tough fast curing structural adhesive with superior impact and peel resistance to most plastic surfaces such as ABS PVC, SMC, composites polyesters, polycarbonate, strenics, PET, fiberglass wood, concrete, ceramic and metal.
