Any distributor can sell you a needed part or product. At Bearing Headquarters our electrical specialists understand every aspect of motor control, enabling us

to offer our customers comprehensive diagnostic services, troubleshooting solutions and all forms of electrical repair, including:

- **Motors - AC, DC, Servo, Linear**
- **Circuit Board Repair (all makes and models)**
- **Variable Frequency Drives - AC/DC**
- **Accelerated Control**
- **Energy Audits**

Bearing Headquarters also specializes in custom motor design, development and assembly. As a result, we pioneer solutions to our customers' most complex and demanding motor control and power transmission challenges.

Bearing Headquarters proudly offers sales and service for the following manufacturers:

- Baldor/Reliance
- Boston
- Emerson
- Hitachi
- Hyundai
- Leeson
- Lincoln
- Omron/IDM
- Sterling
- WEG

Meeting Your Needs and Keeping Your Business Profitable

The *Service First*™ company, Bearing Headquarters' **Electrical Products Division** provides electrical motor products and repairs featuring fair prices and superior customer service.

Our customer promise includes:

- **Rapid turnaround** — standard repairs done in 15 days or less
- **Emergency breakdown service** — in-house field service specialists solve problems immediately to keep downtime at a minimum
- **One-year warranty** — coverage on the complete control or circuit board, not just the area repaired
- **Pickup and delivery** — the little extras that save you time and money
